Using the link below, CLA members enjoy complimentary access to the full texts of two multi-jurisdictional guides published by Practical Law:

- Competition and Cartel Leniency
- IP in Business Transactions

Competition and Cartel Leniency

<http://uk.practicallaw.com/resources/multi-jurisdictional-guides/competition-mjg>

This guide provides practical information on topical issues, country-specific Q&A overviews on this area of law and practice and also has its own comparative tool which allows the user to select a specific question or topic, select the jurisdictions they are interested in and the tool will compare the answers. Topics covered include rules on merger control, triggering events and thresholds, notification requirements, or conditions to be satisfied when making a leniency application, the scope of leniency and circumstances when leniency may be withdrawn.

IP in Business Transactions

<http://uk.practicallaw.com/resources/multi-jurisdictional-guides/ip-mjg>

This guide provides country-specific Q&As on IP law and practice in key jurisdictions around the world. It provides practical information on maintaining an IP portfolio, exploiting an IP portfolio through assignment and licensing, taking security over IPs, IP and M&A transactions, or the impact of IP on other areas such as employment and competition law, the Q&As give an invaluable structured overview of the key issues, legal system and laws in a wide range of pivotal jurisdictions.

The Q&A chapters are written by leading local law firms in each jurisdiction. The questions are designed by PLC's team of ex-private practice lawyers alongside international editorial boards comprising legal professionals (both in-house and private practice) active in that particular area. This helps to ensure the guide addresses the key issues facing any international lawyer doing business in an unfamiliar jurisdiction.
